

# Commercial AD

Facility Type:	Project Finance & Long Funding Lease
Sector:	Renewable Waste to Energy
Asset:	Anaerobic Digester Plant
Value:	€8,000,000

As with other project finance transactions, the devil is understanding the component parts, tying down the critical moving parts as part of the credit due diligence process and fine tuning all the requisite documents into financial close.

This specific project converted in the main waste water sludge (a problem for disposal) into electrical energy exported to the grid.
